I am a proud community organizer and dedicated resident of South San Francisco for 23 years, where I raised my family. With 27 years in senior leadership roles across Finance (CFO, Treasury) and Operations, I'm prepared to address city challenges head-on.

South San Francisco faces a budget deficit of \$11 million. I commit to implementing strategic and responsible fiscal solutions to get us back on track without cutting essential programs or reducing staff. My track record in transforming teams to profitability demonstrates my capability to lead through tough times.

I will ensure public safety in schools, places of worship, and throughout the community as a top priority. We will strengthen crime prevention programs and community partnerships with our Police and Fire Departments.

Representation matters. Our current City Council comprises one woman and four men. We need another woman to reflect our diversity and needs. I work closely with the largest parish whose members are based in District 2 and understand their concerns, including our most vulnerable (youth and seniors).

Let's be bold and work together to make South San Francisco economically secure and the best place to live and work.

Join me in bringing change, service, experienced leadership, and deepening trust in our Council.
