

South San Francisco Homeowners!

South San Francisco's new ADU Program HelloADU is a new ADU technical assistance program that can help with your ADU project. Participating homeowners will receive up to 100 hours of **free feasibility and project management support** from nonprofit Hello Housing to help them navigate the complicated process of designing and constructing an ADU or jr. ADU.

At NO COST to you, our team will:

- ✓ Perform a feasibility assessment of your property
- ✓ Help you shape your vision for your ADU or Jr. ADU
- ✓ Coordinate design, cost estimating, & contractor selection
- ✓ Help you with permitting
- ✓ Support you through construction
- ✓ Connect you to landlord training and tenant matchmaking

Turn your “I might do it someday” into “Let’s do it today!”

I want to add an ADU unit to my single-family home in South San Francisco.

I am motivated to get started, but could use support and guidance from a trusted partner throughout the process

I believe I have the financial capacity to afford the cost of adding a new ADU
