

# ACCESSORY DWELLING UNITS: GENERAL INFORMATION

## What is an accessory dwelling unit (ADU)?

An **Accessory Dwelling Unit (ADU)** is a dwelling unit that provides complete independent living facilities for one or more persons and is located on a lot with an existing or proposed primary residence. It includes permanent provisions for living, sleeping, eating, cooking, and sanitation on the same parcel as a single-unit or multiple-unit residential dwelling is or will be situated.

## What are the different types of ADUs?

**Attached ADU:** Added to a proposed or existing primary residence; new construction.

**Detached ADU:** A freestanding structure; new construction.

**Converted ADU:** Located within the physical dimensions of an existing or proposed single-unit dwelling or an existing accessory structure, or within the non-livable area in an existing multiple-unit residential dwelling structure.

## What is a junior accessory dwelling unit (JADU)?

A **Junior Accessory Dwelling Unit (JADU)** is a unit that is no more than 500 square feet in size and contained entirely within an existing or proposed single-family residence. A JADU may include separate sanitation facilities or may share sanitation facilities with the existing structure.

## How do I apply for an ADU or JADU?

Applications are submitted to the Building Division, and the plans are reviewed ministerially by the Planning Division within 60 days of deeming an application complete.
