APPROPRIATIONS LIMITS

In 1979, California voters approved Proposition 4, known as the Gann Appropriations Limit (Gann Limit). The Gann Limit is part of California State Constitution Article XIIIB. The Gann Limit sets an annual appropriation limit on the amount of tax proceeds to all California municipalities. In addition to limits of tax proceeds, the Gann Limit limits the amount of money a city can appropriate based on the previous year appropriations plus a per capita personal income (CPI) change and a percent population change. Since its initial passage, the Gann Limit has been modified through various propositions. The most recent modification was approved by the voters in 1990 under Proposition 111. Proposition 111 exempted some appropriations such as Redevelopment money and changed the calculation formula, which greatly increased the appropriations limit. Currently, the City of South San Francisco uses the California Department of Finance statistics of CPI and percent population change to formulate the Gann Limit for the City for each fiscal year.
