"Every 15 Minutes" Anti-Drunk Driving Program

On April 10 and 11, 2024, South San Francisco High School in collaboration with the California Office of Transportation Safety, the California Highway Patrol, the South San Francisco Fire Department and the South San Francisco Police Department hosted "Every 15 Minutes" for students at South San Francisco High School. "Every 15 Minutes" is a two-day program designed to challenge and educate high school juniors and seniors about drinking and driving.

The first day consisted of a simulated traffic collision that involved nine students from the South San Francisco High School student body. Representatives from the South San Francisco Police and Fire Departments participated in the simulated response. The Fire Department simulated the transport of one of the passengers and the Police Department conducted a mock traffic collision/drunken driving investigation. One of the students portrayed as a pedestrian who had been killed as a result of the collision and one student portrayed as a driver being arrested for driving under the influence of alcohol.

The second day consisted of an assembly for the junior and senior classes. At the assembly, a guest speaker from MADD (Mother's Against Drunk Driving) shared her story of how her husband was killed by a drunk driver. The 2024 South San Francisco High School "Every 15 Minutes" film was shown to the assembly attendees, as well. The program was a resounding success at South San Francisco High School and was well received by the student body and all who attended.
